PERMITTED CONSTRUCTION PLAN · PHASE 1 LAYOUT

Zoning: General Commercial (C-3) within the Haines City CRA District, allowing broad retail, office and hospitality uses. Commercial, flexible use: the parcels are sub-dividable (0.5–5+ acres) and intended for commercial retail, medical, QSR or service uses.

Allowed uses: typical commercial uses are supported, including gas/convenience, retail strip, restaurants (including drive-thru), medical office and professional office. More granular zoning allowances can be confirmed with the City of Haines City/Polk County as needed.

Highest and best use: QSR pads, medical office or small-format retail users. Given traffic and growth in this corridor, a multi-tenant retail strip with out-parcels is described in the source as very strong.

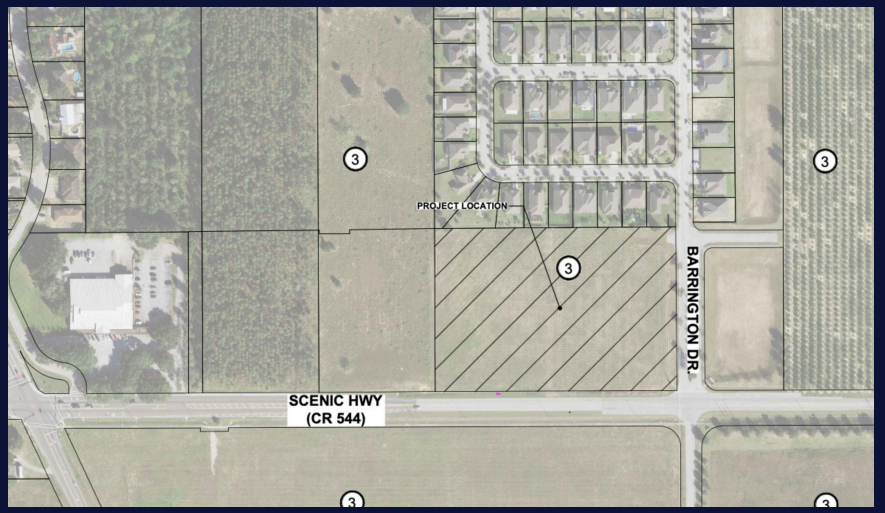

Permits: construction plans are fully permitted and approved for site development, which adds value and shortens the development timeline.

MARKET AND POSITIONING

Pad-ready land in a fast-growing corridor

A fast-growing corridor serving 56K population within 5 mi.

- Pad-ready premium: comparable shovel-ready sites in Polk Co. list $800K–$1M per ac; raw land averages ≈ $75K–$150K per ac
- QSR pads (0.5–1 ac): frontage sites ideal for fast-food or coffee drive-thru users, with shared traffic from the gas station
- Medical office (1–5 ac): build-to-suit potential for a clinic or urgent care serving rapid residential growth
- Self-storage (4–7 ac): conditional use supported nearby; flat, cleared land suits a multi-building layout
