THE OPPORTUNITY

A gated hillside address at the southern gateway into Dallas

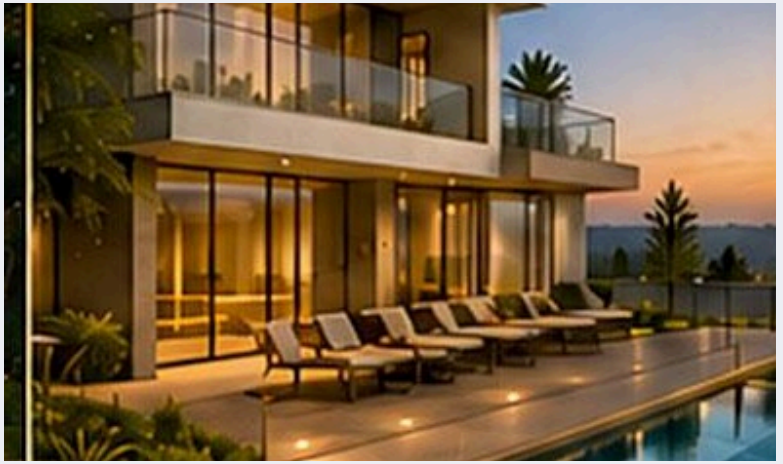

Dallas Hill Villas is a proposed ultra-luxury, gated single-family community on a wooded hillside at 10407 S Central Expressway, with frontage on both Interstate 20 and Interstate 45 and panoramic views toward downtown Dallas.

The site is currently zoned agricultural. A proposal is in place to rezone to Residential R-1ac(A), supporting estate lots of approximately one acre. Topographic, tree and geotechnical surveys are in progress, along with platting and replat preparation.

Architecture, planning and interiors are by **ARK Architects, Inc.** of Plano, Texas, an independent firm working with Goyal & DeCoster on the project.

WHAT THE PLAN CONTEMPLATES

- Approximately 1-acre estate lots, controlled access and gated entry
- High-end homes estimated at $3,000,000 and above
- Premium architectural standards across the community
- Approximately ±3.5 acres allocated to a resort cabin area under the proposed replat

OUR DEVELOPMENT VISION

28 Hill Villas — a gated residential community

- Approximately 1-acre estate lots
- High-end homes estimated at $3,000,000+
- Premium architectural standards
- Controlled access / gated entry

The community is laid out along a single looped drive that follows the natural contour of the hillside, so that each lot holds its own elevation and outlook rather than competing with its neighbours for the view.

ELEVATED LIVING, IN HARMONY WITH NATURE

SITE CONTEXT

The parcel in its setting

The community sits inside the highway interchange, screened by mature tree cover on three sides while retaining direct frontage and visibility from both interstates.

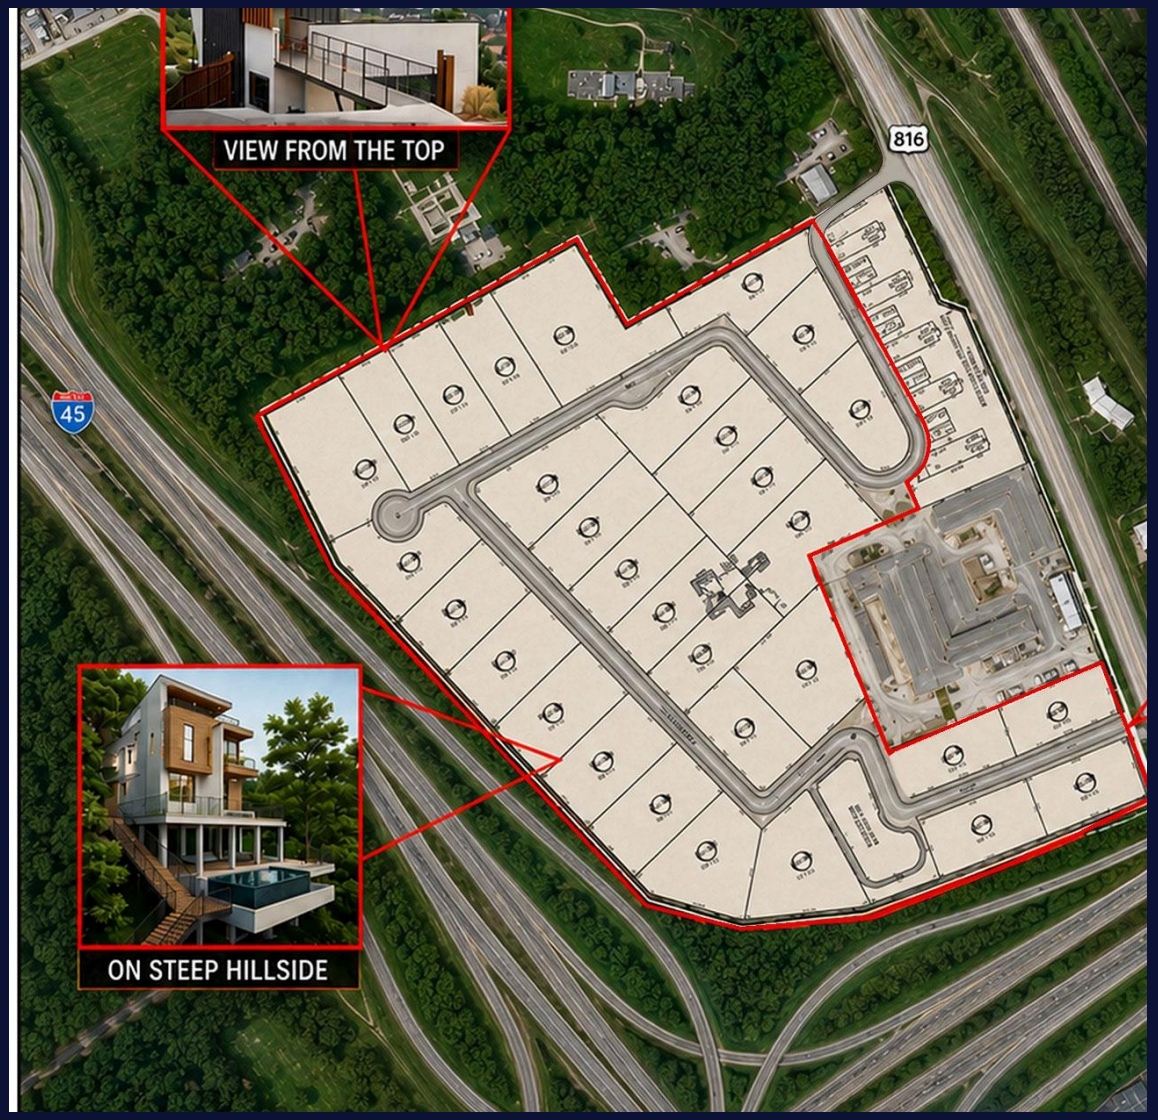

Grade across the site falls toward the south and west, which is what makes the hillside typology work: homes step down the slope, and the lower levels open to long views rather than to a neighbouring lot.

DESIGN RESPONSE

- Homes on stepped, terraced foundations following existing grade
- View corridors preserved along the primary slope
- Existing tree cover retained wherever the plat allows
